

AXIS M1054 Network Camera

Small and smart HDTV camera

AXIS M1054 uses progressive scan to provide full frame rate video in resolutions up to 1 megapixel including HDTV 720p. It provides multiple, individually configurable video streams in H.264 as well as Motion JPEG. AXIS M1054 can be powered either over Ethernet or with a 5 V DC input. It features an integrated PIR sensor for detecting movement even in the dark, and a white LED for illuminating the scene at an event. It also provides two-way audio support, allowing remote listening in on an area, and communication with individuals directly or using uploaded or recorded audio clips.

- > **HDTV 720p/1 MP quality**
- > **Power over Ethernet**
- > **PIR sensor and illumination LED**
- > **Microphone and speaker**
- > **I/O port**
