

AXIS M1145-L Network Camera

Compact and affordable HDTV 1080p camera with OptimizedIR

AXIS M1145-L with board-mounted, varifocal P-Iris lens provides excellent image quality in 2 megapixel/HDTV resolution. The P-Iris control provides optimal depth of field, resolution, image contrast and clarity. AXIS M1145-L offers edge storage and Axis' OptimizedIR, a power-efficient IR LED technology providing automatic illumination of a scene in complete darkness. Remote zoom and focus eliminate the need for hands-on fine tuning, and digital pan/tilt/zoom allows a view cropped from the full view to be streamed for viewing or recording. The input/output port can be used for simple notification to an alarm panel, control of a relay or when using a PIR sensor.

- > **HDTV 1080p/2 MP quality**
- > **Axis' OptimizedIR**
- > **P-Iris control**
- > **Power over Ethernet**
